Sm.A.L.L.S. Guide

An AWCY? Production

Version 1.0.0

Description

The Sm.A.L.L.S. assembly is almost identical to the B.A.L.L.S. with a few minor differences.

Hardware Differences

Barrel is 1in EMT (Cut to size)

Mag Spring is an AR buffer spring or equivalent

Breech Face is 30 x 45mm

Breech Bars are 45mm Long

Locking Bar is 40mm Long

Rim Rails are 25mm Long

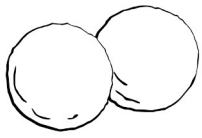

All 4 Linear Rods are 150mm Long (vs 2x 150mm and 2x 200mm)

There are only 4 Threaded Rods and 8 Nuts (vs 6 & 12)

SCS Parts are unique, except for the Locking Arms

Fewer required M3 Bolts and Heat Inserts

Other than the described differences, the Sm.A.L.L.S. assembly is identical.
